“ECEXA Expert Panel On New Products And Business Models With Crypto-Coins And Their Blockchains For Emerging Future Markets”

ECEXA has invited its cluster partners, ambassadors and diplomats from African countries to an exchange of information with the “**International Crypto Group**”, a global crypto-currency organization that also offers mining farms for Bitcoin, as well as its own national currencies, Exchange, and ATM. The topics were discussed how crypto-coins and their blockchains can be used to promote economic development more effectively and to open up new markets and trade opportunities. Currently, ECEXA serves 15 countries in Asia and Africa that have joined our project at the highest political and diplomatic levels.

The speakers of the "International Crypto Group": Senator Dr. Gerhard Kiennast, David Schnetzer, Björn Matthies and Ing. Karl Heinz Langwieser.

Among the guests were diplomatic representatives from Eritrea, Sudan, Nigeria, Saudi Arabia, Liberia, Mrs. Etenesh Hadis from the African Women's Organization, as well as representatives of the UNIDO Department for Sustainable Development.
