

## ECEXA NEWS - Preparation Business Mission Africa – SUDAN and SOUTH SUDAN

The economies in Africa will in future be able to grow on their own. And indeed: A shopping-ready middle class and high investments in infrastructure make Africa a continent of opportunity. It is therefore clear that despite crises and difficult conditions, one can do good business in Africa. More than anywhere else, however, market development requires good preparation.

The big winners are China and India so far. The advance of both countries in the region continues unabated. Austrian companies want to keep up, so that they do not go out empty someday.

As a result, on 29 November 2017, preparations for a business mission of ECEXA Environmental Cluster to Sudan and South Sudan took place.

Main topics: water, electricity, waste management, agriculture, soil recovery, financing innovations.

The Ministers of Industry from Sudan and South Sudan, Dr. Musa M. KARAMA, Mr. Hon. Moses TIEL, from the Embassy of Sudan Mr. Omar EISA and the Ambassador of Eritrea Mr. Abdulkadir HAMDAN as well as our ECEXA speakers Senator Dr. Kiennast, DI Sharief, Sheik Dr. Mihállfy, Dr. Wandl, Ing. Morvai, Ing. Schnetzler, supporter Dr. Fasslabend and Mr. Sandor Habsburg-Lothringen.
